

Syllabus

Departments of "History of Kazakhstan and social and social disciplines", "Social and humanitarian disciplines", "Hygiene and Epidemiology"

Working curriculum of the discipline "Legal, economic, environmental and scientific knowledge"

Educational program "6B10115- Medicine"

1	General information about the discipline		
1.1	Discipline code: LEESK1102	1.6	Academic year: 2024-2025
1.2	Title of the discipline: Legal, economic, environmental and scientific knowledge	1.7	Course: 1
1.3	Prerequisites: The History of Kazakhstan	1.8	Semester:2
1.4	Post-requirements: Philosophy, Psychology and cultural studies, sociology and political	1.9	Number of credits (ECTS): 5
1.5	Cycle: GEC	1.10	Component: UK
2	Description of the discipline:		
	The concept of the fundamentals of law, anti-corruption culture, economics, scientific research and environmental safety. General questions of the theory of law and economics, anti-corruption culture, methods of scientific research, fundamentals of environmental knowledge. Theory of state and law, formation of anti-corruption culture, fundamentals of economic knowledge, methodology of science, methods of collection, analysis and publication of scientific data, environmental safety of man and society.		
3	Summative evaluation form		
3.1	Testing +	3.5	Курсовая
3.2	Written	3.6	Essay
3.3	Oral	3.7	Project
3.4	OSP/USC or the reception of practical skills	3.8	Other (specify)
4.	Objectives of the discipline		
	To acquaint students with the basic concepts and laws of legal and economic science, with the content of anti-corruption culture, scientific research and ecology; with the tasks and main sections of such disciplines as fundamentals of law, anti-corruption culture, economics, research methods, ecology and life safety.		
5.	Final learning outcomes (CLO disciplines)		
CLO1	Knows and understands the main stages of scientific research and methods of processing scientific data.		
CLO2	Demonstrates knowledge and understanding of the system of norms of the Constitution of the Republic of Kazakhstan, the main definitions and categories of the theory of law and the state, the most important norms of sectoral legislation and economic theory.		
CLO3	Knows about the measures of legal and moral responsibility for corruption offenses within the framework of the current legislation in the field of anti-corruption.		
CLO4	He is able to analyze the economic situation at the micro and macro levels, focusing		

	on the economic laws and patterns of development of the modern economy.					
CLO5	Develops his own moral and civic position.					
5.1	CLO disciplines	The results of the training of the OP, with which the CLO disciplines are associated				
	CLO 1 CLO 2 CLO 3 CLO 4 CLO 5	CLO 1. Applies in practice fundamental knowledge in the field of biomedical, clinical, epidemiological and socio-behavioral sciences. CLO 2. Provides patient-centered care in the field of biomedical, clinical, epidemiological and social behavioral sciences, aimed at the diagnosis, treatment and prevention of the most common diseases.				
	CLO 2 CLO 5	CLO 3. Carries out its activities within the framework of the legislation of the Republic of Kazakhstan in the field of healthcare to ensure quality medical care.				
	CLO 2 CLO 5	CLO4. Effectively communicates with patients, their families and medical professionals on the basis of compliance with the rules of ethics and deontology, leading to effective exchange of information and cooperation.				
	CLO2 CLO3 CLO4	CLO 9. It works in the electronic databases of the healthcare system of the Republic of Kazakhstan, providing documentation of the processes of providing medical services.				
	CLO1 CLO2 CLO4	CLO 12. Applies modern research methods in healthcare, taking into account bioethics, introduces new methods into clinical practice.				
6	Detailed information about the discipline

8.	Thematic plan					
Week/day	Topic name	Summary	CLO discipline	Number of hours	Forms/ methods/ technologies of training	Assessment forms/ methods
1	Lecture. Scientific knowledge and its role in modern civilization. The structure of scientific knowledge.	The specifics of scientific knowledge. Levels of scientific knowledge. Forms of scientific knowledge. Scientific hypothesis. Scientific theory. A paradigm, a scientific picture of the world. Functions of science. Empirical knowledge. Theoretical knowledge. Methods of scientific cognition. The concept of methodology, methods, methodology. System-structural approach. Classification of methods of scientific cognition.	CLO1 CLO4	1	Overview	Feedback (blitz survey)
	Practical lesson. Organization and implementation of research work. Methodology and methodology of scientific research	Search, accumulation and processing of scientific information. Familiarization with the sequence of research. Stages of research work. The essence of the research methodology. Definition of the object and subject of research.	CLO1 CLO4	3	Debates, brainstorming	Oral interview

		Determination of the purpose and objectives of the study.				
	SROP. The subject and task of the SRO. Science and society	Approaches to the role of science in modern society: scientism and anti-scientism.	CLO1 CLO4	1/4	Essay, presentation	Checklist for SRO assessment
2	Lecture. Student research papers	Abstracts and reports. Term papers. Theses. Requirements for the content and design of student papers.	CLO1 CLO4	1	Information	Feedback (blitz survey)
	Practical lesson. Scientific methods of cognition in research.	The general scheme of scientific research. Methods of scientific cognition. Experimental scientific research and its implementation.	CLO1 CLO4	3	Discussion	Oral interview
	SROP. The subject and task of the SRO. 1. Methodology of scientific research. 2. The use of neural networks and artificial intelligence in scientific medical research.	1. The concept of the method and methodology of scientific research. Philosophical and general methods of scientific research. 2. The use of neural networks and artificial intelligence in scientific medical research, pros and cons.	CLO1 CLO4	1/5	Presentation, essay	Checklist for SRO assessment
3	Practical lesson. The main methods of information retrieval for scientific research. Scientific works as intellectual property and copyright protection.	Documentary sources of information. Search for documentary sources of information. The use of international bibliographic and abstract databases and tools to track the citation of articles. The concept of uniqueness of scientific research. Copyright in scientific research.	CLO1 CLO2 CLO4 CLO5	2	Round table	Oral interview

	SROP. The subject and task of the SRO. Analysis and detailed analysis of a scientific article.	The document's compliance with the current requirements for textual design, the absence of heavy and complex structures, the appropriateness of the use of professional terminology, the quality of the evidence presented and their weight, the quality and scope of the argumentation scheme, checking the quotations made and their compliance with the topic under study, the coherence of the structural components of the text. Analysis plan: Formal characteristics of a scientific publication. Author. Annotation. The relevance of the topic and the novelty. Stylistic correspondence. The sequence of presentation. The quality of the literature used. The methodology described in detail.		1/5	Content analysis	Checklist for SRO assessment
4	Lecture. Basic concepts and categories of state and law. Fundamentals of constitutional law and administrative law of the Republic of Kazakhstan.	The essence, signs and functions of the state. The origin, concept and signs of law. Principles and functions of law. The concept, the subject of constitutional law as a science and branch of law. constitutional law. The Constitution of the Republic of Kazakhstan and its development. Fundamentals of the constitutional system. Constitutional foundations of the legal status of a person and a citizen in the Republic of Kazakhstan. The subject and method of administrative law.	CLO2 CLO3 CLO4 CLO5	1	Overview	Feedback (blitz survey)
	Practical lesson. The basic concepts of the state, law and state-legal phenomena.	The concept of the state, the theory of origin. Signs, functions and form of the state. Definition and main features of	CLO2 CLO3 CLO4 CLO5	3	Working in small groups	Oral interview

	Fundamentals of constitutional law and administrative law of the Republic of Kazakhstan.	the law. Principles of law. Sources of law. The concept, the subject of constitutional law as a science and branch of law. Constitutional and legal norms. Constitutional and legal relations and their subjects. Sources, principles, system of constitutional law. The Constitution of the Republic of Kazakhstan and its development. Subject, method and system of administrative law of the Republic of Kazakhstan. Sources of administrative law.				
	SROP. The subject and task of the SRO. Electoral law of the Republic of Kazakhstan	General characteristics of the electoral system of the Republic of Kazakhstan. Principles of the electoral law of the Republic of Kazakhstan. Electoral authorities of the Republic of Kazakhstan.	CLO2 CLO3 CLO4 CLO5	1/4	Content analysis	Checklist for SRO assessment
5	Lecture. Fundamentals of civil and family law of the Republic of Kazakhstan.	Concept, subject, principles of civil law. Sources and system of civil law. The subject, principles and sources of family law. Marriage by family law and related. Alimony relations. The concept, subject and method of labor law. Employment contract: concept, parties, content.. Concept, subject and principles of criminal law. Sources of criminal law. The concept of criminal responsibility. The concept of crime. Classification of crimes.	CLO2 CLO3 CLO4 CLO5	1	Thematic	Feedback, (blitz survey)
	Practical lesson.	The concept of civil law of the Republic of Kazakhstan. The	CLO2 CLO3	3	Working in small	Oral interview

Fundamentals of civil, family, financial and labor law of the Republic of Kazakhstan.	concept, the subject, the method of civil law regulation. The concept of legal capacity and legal capacity of citizens. Transactions and other grounds for the emergence of civil relations. The concept and principles of family law of the Republic of Kazakhstan. Marriage and family law. Conclusion and termination of marriage. Guardianship, guardianship, concept, general characteristics. Alimony relations of family members. The concept, subject, method of financial law of the Republic of Kazakhstan. The concept, tasks, types and methods of financial control. The budget system of the Republic of Kazakhstan. Types and levels of budgets. The tax system of the Republic of Kazakhstan. Taxpayers, their rights and obligations. The subject, method, system and sources of labor law. The legal basis of employment and employment. An individual employment contract. Collective agreements and agreements Working hours. Rest time.	CLO4 CLO5		groups	w/comp leting tasks
SROP. The subject and task of the SRO. 1. The main provisions of the Code of the Republic of Kazakhstan "On the health of the people and the	The Code of the Republic of Kazakhstan "On the health of the people and the healthcare system". The legal status of pharmaceutical and medical workers, their social security. The right to health protection and medical care. Administrative offenses that	CLO2 CLO3 CLO4 CLO5	1/5	Writing a synopsis, presentation	Checklist for SRO assessment

	health care system. Violations in the field of health protection.	infringe on the health of the population. Criminal offenses against public health. Medical criminal offenses.				
6	Practical lesson. Fundamentals of criminal law of the Republic of Kazakhstan. Fundamentals of environmental and land law of the Republic of Kazakhstan. Law enforcement agencies of the Republic of Kazakhstan.	The concept of criminal law, principles, objectives and sources of criminal law. Concepts and signs of a crime and a criminal offense. Categories of crimes. The concept, subject, method and system of environmental law. Basic principles of nature management and environmental protection. General characteristics of the right of ownership of natural resources, the right of nature use. General characteristics and definition of the system of law enforcement agencies of the Republic of Kazakhstan.	CLO2 CLO3 CLO4 CLO5	2	Working in small groups	Oral interview
	SROP Fundamentals of international law.	The concept, essence, goals and objectives of international law. Sources of international law. Subjects of international law. The ratio of the norms of international law and the legislation of the Republic of Kazakhstan. Principles of international law.	CLO2 CLO3 CLO4 CLO5	1/5	Content analysis	Checklist for SRO assessment
7	Lecture. Theoretical and methodological foundations of the concept of "corruption". Formation of an anti-corruption	The essence and forms of corruption. Improvement of anti-corruption legislation. Legal and moral consciousness as elements of anti-corruption culture. Anti-corruption culture in	CLO2 CLO3 CLO5	1	Overview	Feedback (blitz survey)

	culture. Practical lesson. National foundations for the formation of an anti-corruption culture.	foreign countries. The concept of anti-corruption culture, the essence of the concept of reasonable consciousness. The foundations of the formation of anti-corruption behavior in national values. Does not know the tasks of ecology and life safety 2. Cannot explain the interrelation of factors that have an anthropogenic impact on the health of the population. 3. Cannot assess the causes of environmentally dependent diseases that occur among the health of the population due to cause-and-effect environmental factors.	1. Knows the tasks of ecology and life safety 2 Can analyze current situations related to factors that have an anthropogenic impact on the health of the population. 3 Cannot assess the causes of the occurrence of environmentally dependent diseases that occur among the health of the population due to cause-and-effect environmental factors.	1. Knows the current situation in the field of ecology and life safety, including safety requirements. 2. Can analyze current situations related to factors that have an anthropogenic impact on the health of the population. 3. Can assess the causes of environmentally dependent diseases that occur among the health of the population due to cause-and-effect environmental factors.	1. Well versed in the current situation in the field of ecology and life safety, including safety requirements 2. Can comprehensively analyze current situations related to factors that have an anthropogenic impact on the health of the population. 3. Assesses current trends and development prospects in the field of ecology and life safety

10.2 Evaluation criteria for teaching methods and technologies

Checklist for practical training

1	Oral and written response	Great Corresponds to the estimates: A (4.0; 95-100); A- (3,67; 90-94)	It is put if the student did not make any mistakes or inaccuracies in the answer. He is guided by theories, concepts and directions on the topic under study and gives them a critical assessment, uses the achievements of scientific data. If the student does not make mistakes in the answer, admits fundamental inaccuracies or fundamental errors corrected by the student himself, he can systematize the program material with the help of a teacher.
----------	----------------------------------	--	--

		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	If the student does not make mistakes in the answer, admits fundamental inaccuracies or fundamental errors corrected by the student himself, he can systematize the program material with the help of a teacher.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	It is put if the student admits inaccuracies and errors in the answer, is limited to the educational literature specified in the syllabus, has great difficulties in systematizing the material.
		Unsatisfactory Corresponds to the assessment FX (0,5; 25-49); F (0; 0-24)	If a student makes fundamental mistakes when answering, does not work with the main literature on the topic of the lesson; cannot use the scientific terminology of the subject, answers with gross stylistic and logical errors.
2	Solving situational problems	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	- shows deep knowledge of the material; - actively participates in the discussion and solution of the case; - offers optimal solutions to the problems presented in the case; - justifies his decision; - logically answers questions and formulates them.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	- admits unprincipled mistakes, some, with leading questions from the teacher, independently corrects.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	- makes unprincipled mistakes that he cannot correct on his own, even with leading questions from the teacher.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	- makes fundamental blunders in the discussion of the case. - does not know the educational material.
3	Control work of test tasks in	Great Corresponds to the	Correct answers from 20 test tasks: 17-20 Correct answers from 30 test tasks: 26-30

	writing	estimates: A (4,0; 95-100); A- (3,67; 90-94)	Correct answers from 40 test tasks: 34-40 Correct answers from 50 test tasks: 43-50				
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	Correct answers from 20 test tasks: 13-16 Correct answers from 30 test tasks: 20-25 Correct answers from 40 test tasks: 26-33 Correct answers from 50 test tasks: 33-42				
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	Correct answers from 20 test tasks: 8-12 Correct answers from 30 test tasks: 12-19 Correct answers from 40 test tasks: 16-25 Correct answers from 50 test tasks: 20-32				
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	Correct answers from 20 test tasks: 0-7 Correct answers from 30 test tasks: 0-11 Correct answers from 40 test tasks: 0-15 Correct answers from 50 test tasks: 0-19				
	Form of control Seminar	№ п/п	Evaluation criteria	Level - assessment			
				Excel lent	Recept ion- lemo	Requi res correc tion	Unac cepta ble
	Checklist	1	Reveals the practical and theoretical significance of the topic.	10	7,5	5	0
		2	.Uses interdisciplinary and intra-disciplinary communication.	10	7,5	5	0
		2	Knows how to lead and maintain a discussion with the audience.	10	7,5	5	0
		3	Performs the tasks of the teacher.	10	7,5	5	0
		4	Shows activity and interest during the class.	10	7,5	5	0
		6	Analyzes the responses of the speeches.	10	7,5	5	0
		7	Applies visualization tools/uses other visual aids.	10	7,5	5	0
		8	Shows the makings of a leader, mobilizes the group to perform the assigned tasks.	10	7,5	5	0

	9	Competently formulates conclusions.	10	7,5	5	0
	10	Shows communication skills in communicating with the group and the teacher.	10	7,5	5	0

Checklist for SRO, SROP

1	Presentation	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	The student performs the presentation independently, within the established time frame. Presentation consists of 20 slides and is based on informational, scientific data. The slides are informative and short. During the defense, the author demonstrates deep knowledge of the topic. Gives a clear, reasoned answer when discussing and answering questions The student performs the presentation independently, within the established time frame.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	Presentation consists of 20 slides and is based on informational, scientific data. The slides are informative and short. During the defense, the author demonstrates deep knowledge of the topic. When answering questions, he makes fundamental mistakes, which he corrects himself.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D- (1,0; 50-54)	The presentation is self-evident, in the developed regions. Presentation consists of 20 slides and reflects information, scientific data. The slide is short, and the importance is not expressed in completeness. At the same time, the questions are related and you can analyze them. The student does not perform the presentation independently, within the established time frame. .
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	Presentation consists of 20 slides and does not rely on informational, scientific data. Slides do not reveal the content of the title. During the defense, the student makes gross mistakes when answering questions. Not oriented in its own material.
2	Essay	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	The essay was completed on time, written independently, the structure fully meets the requirements. The essay fully reflects the problem being studied. The student analyzed the problem, argued his conclusions and presented his own analysis of this problem. Illustrations are provided. When defending, he answered all the questions correctly.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79);	The essay was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, I made inaccuracies in answering questions.

		C+ (2,33; 70-74);	
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	The essay was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, he was poorly oriented in the questions asked. He did not sufficiently substantiate his conclusions.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	The essay was not completed on time. The problem is poorly covered, there is no analysis and own argumentation of the problem, does not answer questions.
3	Report	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	The abstract was completed on time, written independently, the structure fully meets the requirements. The essay fully reflects the problem being studied. The student analyzed the problem, argued his conclusions and presented his own analysis of this problem. Illustrations are provided. When defending, he answered all the questions correctly.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	The abstract was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, I made inaccuracies in answering questions.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	The abstract was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, he was poorly oriented in the questions asked. He did not sufficiently substantiate his conclusions.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	The abstract is not completed on time. The problem is poorly covered, there is no analysis and own argumentation of the problem, ga does not answer questions.
4	Project development	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	The project was completed on time, the structure fully meets the requirements. The project fully reflects the problem being studied. The student analyzed the problem, argued his conclusions and presented his own analysis of this problem. Illustrations are provided. When defending, he answered all the questions correctly.

		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	The project was completed on time, the structure fully meets the requirements. Illustrations are provided. During the defense, I made inaccuracies in answering questions.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	The project was completed on time, the structure fully meets the requirements. Illustrations are provided. During the defense, he was poorly oriented in the questions asked. He did not sufficiently substantiate his conclusions.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	The project was not completed on time. The problem is poorly covered, there is no analysis and own argumentation of the problem, does not answer questions.
5	Content analysis	Great Corresponds to the estimates: A (4,0; 95-100); A- (3,67; 90-94)	The content analysis was completed on time, written independently, the structure fully meets the requirements. Content analysis fully reflects the problem being studied. The student analyzed the problem, argued his conclusions and presented his own analysis of this problem. Illustrations are provided. When defending, he answered all the questions correctly.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	The content analysis was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, I made inaccuracies in answering questions.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D-(1,0; 50-54)	The content analysis was completed on time, written independently, the structure fully meets the requirements. Illustrations are provided. During the defense, he was poorly oriented in the questions asked. He did not sufficiently substantiate his conclusions.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	The content analysis was not completed on time. The problem is poorly covered, there is no analysis and own argumentation of the problem, does not answer questions.
6	Comparative analysis	Great Corresponds to the	The comparative analysis was carried out in full and on time. All recommendations and requirements for the

		estimates: A (4,0; 95-100); A- (3,67; 90-94)	performance of the work are taken into account. During the defense, the student demonstrates deep knowledge of the topic. Does not make mistakes when answering questions during the discussion.
		Good Corresponds to the estimates: B+ (3,33; 85-89); B (3,0; 80-84); B- (2,67; 75-79); C+ (2,33; 70-74);	The comparative analysis was carried out in full and on time. All recommendations and requirements for the performance of the work are taken into account. During the defense, the student shows good knowledge of the topic. He makes unprincipled mistakes when answering questions that he corrects himself.
		Satisfactory Corresponds to the estimates: C (2,0; 65-69); C- (1,67; 60-64); D+ (1,0; 50-54); D- (0,0; 50-54)	The comparative analysis was performed in an incomplete volume and at an unspecified time. Not all recommendations and requirements for the performance of the work are taken into account. During the defense, the student makes fundamental mistakes when answering questions.
		Unsatisfactory Corresponds to the assessment: FX (0,5; 25-49); F (0; 0-24)	Comparative analysis has not been performed.

Interim certification

1	Written test assignments	Great	Correct answers from 50 test tasks: 43-50
		Good	Correct answers from 50 test tasks: 33-42
		Satisfactory	Correct answers from 50 test tasks: 20-32
		Unsatisfactory	Correct answers from 50 test tasks: 0-19
	Completing test tasks	Great	90-100% correct answers
		Good	70-89% correct answers
		Satisfactory	50-69% correct answers
		Unsatisfactory	Less 50% correct answers

Multi-point knowledge assessment system

Rating by letter system	Digital equivalent of points	Percentage content	Assessment according to the traditional system
A	4,0	95-100	Great
A -	3,67	90-94	
B +	3,33	85-89	Good
B	3,0	80-84	
B -	2,67	75-79	Satisfactory

12. Discipline Policy

Requirements for students:

1. Students must complete tasks on a daily basis according to the schedule of lectures, practical classes

and CROPE classes.

2. Have an idea about the topic of the upcoming lecture, be ready for feedback at the lecture.

3. Students should participate in discussions, complete individual and group assignments, and explore other resources.

4. Students should keep track of the end dates of assignments.

5. Do not skip all types of classes without good reason.

6. Perform SRO according to the schedule specified in the program.

7. All types of written works of students are checked for plagiarism.

8. If you skip each lecture lesson, the assessment of boundary control is reduced by 1 point, if you skip each lesson, the assessment for SRO is reduced by 2 points.

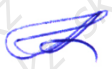

9. When calculating the final rating, penalty points for missed lectures and SRO are deducted from points for foreign control.

10. Students must complete tasks daily according to the schedule of lectures, practical classes and SROP, monitor the end dates of assignments.

Punitive measures: If you miss one lecture session without a valid reason, the penalty point is 1 point (skipping lectures in the form of penalty points are deducted from the boundary control assessments (skipping classes in the form of penalty points are deducted from the SRO assessments). The penalty point for skipping 1 session of the SROP is 2 points. For being late, inappropriate behavior during class, damage to the property of the department, use of a cell phone in class, 0.5 points are deducted. For late protection of the SRO, 20% is withdrawn, in case of delivery of the SRO during the weeks of the Republic of Kazakhstan, 50% is withdrawn.

Incentive measures: 0.5 points are added to the boundary control in the discipline for active participation in the educational process (participation in Olympiads, research and development, conferences).

13.	Academic policy based on the moral and ethical values of the Academy		
13.1	II. 4 Student's Code of Honor		
13.2	GRADING POLICY 1. Several forms of knowledge control are used in the lesson. The average score is put in the magazine. 2. A student who has not scored a passing score (50%) on one of the types of controls (current control, boundary control No. 1 and/or No. 2) is not allowed to take the exam in the discipline. 3. The final rating admission to the exam in the discipline must be at least 50 points (60%) which is calculated automatically based on the average score of the current control (40%) + the average score of boundary controls (20%). 4. Intermediate certification: testing.
