Appendix 1

The criteria for implementation and assessment of the SIW:

At the beginning of the academic period, SIW topics are assigned to each learner. The distribution of topics should be such that each learner covers various forms of SIW implementation. The learner prepares and presents the SIW to the department according to the delivery schedule. The grade is set in accordance with the assessment criteria.

In the context of distance learning, tasks are performed on the topic of SIW within the specified timeframe according to the SIW delivery schedule in the “Task” module. Additionally, the teacher can use on-line discussion of SIW using various information platforms and social networks (group call Whatsapp, Zoom, Webex, Skype, etc.).

1. Essay is a small written work, setting out the knowledge and individual position of the learner on a given question.

Recommendations for essay implementation:

- Choice of utterance.
- Definition of the statement’s problem.
- Formulation of the statement’s main idea.
- Determination of your position to the statement.
- Argumentation of one's own opinion.
- Argumentation should be carried out on two levels:
 - Theoretical level* - it is based on philosophical knowledge (concepts, terms, contradictions, directions of scientific thought, relationships, as well as the opinions of scientists, thinkers).
 - Empirical level* - two options are possible here: using examples from social practice and events in society; appeal to personal experience.
- Conclusion

Execution criteria:

- Carefully read the assignment: the essay must have a direct answer to the question posed.
 - Make an essay plan.
 - Content should be consistent and well-reasoned.
 - Completely exclude plagiarism from your essay, essays are a product of purely personal creativity.
 - Laconic, the volume of the essay is clearly defined in the instructions
- One paragraph - one thesis. One sentence, one thought.

Essay structure:

Introduction - (1 paragraph quote, poem, question, reflections, unusual facts, etc.)

The main part - (2-3 paragraphs, be clear, support the main ideas with facts, vivid descriptions)

Conclusion - (1 paragraph - show your views on the problem).

5. References

6. The work must be done in writing and on electronic media.

7. Number of sheets –3-5

2. Writing an abstract and report.

Completing the task:

- 1) determine the purpose of compiling notes;
- 2) write down the name of the text or its part;
- 3) write down the output data of the text (author, place and year of publication);
- 4) highlight the main semantic parts of the text during initial reading;
- 5) highlight the main provisions of the text;
- 6) highlight concepts and terms that require clarification;
- 7) consistently and briefly state in your own words the essential provisions of the material being studied (diagrams, tables);
- 8) include in the record conclusions on the main provisions, specific facts and examples (without detailed description).

Performance criteria:

1. Familiarization with the topic and main issues of the selected work.
2. Familiarization with the assessment and performance criteria.
3. Carefully read the suggested literature.
4. The work must be completed in writing and on electronic media in the form of 5-10 slides
5. Each task must be completed on individual sheets of A-4 format.
6. Number of sheets – 10-15 pages.

Structure of a research project:

1. Project topic
2. Project rationale
3. Purpose of the work
4. Project objectives
5. Project sequence
6. Project conclusion
7. Defense of the research project

Criteria for completion:

1. Familiarization with the topic and main issues of the selected work.
2. Familiarization with the assessment and criteria for completion.
3. Carefully read the proposed literature.
4. The work must be completed in writing and on electronic media in the form of 5-10 slides

Midterm control is carried out in the form of testing or written control work.

In terms of distance learning:

- on-line testing on the Quizzis, Kahhott platform (40-50 test tasks);
- a written answer on the ticket system with subsequent loading into AIS “Platonus”, each ticket contains 3 questions;
- oral interrogation in on-line communication mode

Test tasks

Form of control	Evaluation	Evaluation criteria
Executing test tasks	Excellent	90-100% correct answers
	Good	70-89% correct answers
	Satisfactorily	50-69% correct answers
	Unsatisfactory	Less than 50% correct answers

Written work

Form of control	Evaluation	Evaluation criteria
Written work	"Excellent" Corresponds to estimates: A (4,0; 95-100%); A- (3,67; 90-94%)	It is placed if that learner didn't make any mistakes or inaccuracies during his answer. He is guided in theories, concepts and directions in the studied discipline and gives them a critical assessment, uses the scientific achievements in other disciplines. 90-100% correct answers on tests.
	"Good" Corresponds to estimates: B+ (3,33; 85-89%); B (3,0; 80-84%); B- (2,67; 75-79%); C+ (2,33; 70-74%)	It is placed in the event that the learner, during the answer, did not make gross mistakes in the answer, made non-fundamental inaccuracies or fundamental errors corrected by the learners themselves, managed to systematize the program material with the help of the teacher. 70-89% correct answers on tests.
	"Satisfactorily" Corresponds to estimates: C (2,0; 65-69%); C- (1,67; 60-64%); D+ (1,0; 55-59%); D- (1,0; 50-54%)	It is placed if the learner made inaccuracies and unprincipled mistakes during the answer, limited himself only to the educational literature indicated by the teacher, experienced great difficulties in systematizing the material. 50-69% correct answers on tests.
	"Unsatisfactory" Corresponds to estimates: FX (25-49%); F (0-24%)	It is placed in the event that the learner made fundamental mistakes during the answer, did not work through the main literature on the topic of the lesson; does not know how to use the scientific terminology of the discipline, answers with gross stylistic and logical errors. Less than 50% correct answers on tests.
