- 9. Algorithm for introducing differentiated pay:
  - A. creation of a permanent commission, development of regulations on the rules of differentiated remuneration, development of a matrix for evaluating the work of each employee, assessment of the organization's income for the current period, determination of the accumulation fund for each structural unit, distribution of differentiated allowances by the commission
  - B. development of regulations on the rules of differentiated remuneration, development of a matrix for evaluating the work of each employee, assessment of the organization's income for the current period, determination of the accumulation fund for each structural unit, distribution of differentiated allowances by the commission
  - C. creation of a permanent commission, assessment of the organization's income for the current period, determination of the accumulation fund for each structural unit, distribution of differentiated allowances by the commission
  - D. development of regulations on the procedure for payment of differentiated payments, development of a matrix for evaluating the work of each employee, determination of the accumulation fund for each structural unit, distribution of differentiated surcharges by the commission
  - E. creation of a permanent commission, assessment of the organization's income for the current period, distribution of differentiated allowances by the commission
- 10. Will it be possible to withdraw their deductions if a person has not applied to medical institutions operating in the CSHI system?
  - A. possibly due to the death of the depositor
  - B. possibly at any time
  - C. possible after 6 months
  - D. possible after one year
  - E. impossible

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p> SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>6p. out of 15</p>

11. A 28-year-old man was admitted to the hospital on the 5th day of the disease. He became acutely ill with the appearance of a spot and itching on his leg, fever, then a red seal appeared on the spot, then a bubble that burst with the formation of a painful ulcer, there was a sharp pain and a seal in the left groin area. In the area of the left ankle joint there is a deep ulcer with a diameter of 2 cm. with undercut edges, the base is infiltrated, there is hyperemia and edema around, the ulceration is juicy with serous-hemorrhagic contents, painful on palpation. The doctor suspected the plague in the patient.

Within the scope of what amount of medical care will the patient be treated from 01.01.2020?

- A. On a paid basis
- B. The system of compulsory social medical insurance
- C. Guaranteed amount of free medical care
- D. Through voluntary medical insurance
- E. At the expense of charitable foundations

12. It was decided to transport a seriously ill person to the regional clinical hospital by air ambulance from a village far from the district center.

Who pays for the air ambulance service?

- A. air ambulance services are free for the patient, since he is included in the GAFMC
- B. air ambulance services are free of charge for the patient, since he is included in the CSHI package
- C. air ambulance services are paid for by the regional clinical hospital
- D. air ambulance services are paid for by the district hospital
- E. air ambulance services are paid for by the patient

13. A 40-year-old patient, after an injury to the lumbosacral spine, was treated by a neurologist for the diagnosis of "Post-traumatic lumbosacral sciatica". The district doctor issued a referral for a course of medical rehabilitation.

What source of funding will cover the patient?

- A. Through voluntary health insurance
- B. Guaranteed volume of free medicine
- C. On a paid basis
- D. System of compulsory medical insurance
- E. At the expense of charitable foundations

14. Citizen M., who is preparing to conclude a contract for the provision of paid medical care since January 1, 2021, asked for an explanation about making contributions. According to the agreement, the monthly income will be the amount of 200,000 tenge. The tax agent concluding the contract should inform the citizen that the amount of withheld contributions to the CSHI monthly will be equal to:

- A. 40,000 tenge
- B. 20,000 tenge
- C. 2000 tenge
- D. 4000 tenge
- E. 10,000 tenge

15. The victim of an accident is urgently hospitalized in an urgent clinic with signs of multiple fractures and massive blood loss.

Within the scope of what volume of medical care will blood transfusion be carried out?

- A. system of regional standards for settlements
- B. CSHI
- C. standard of first aid organization

<p>ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ</p>		 <p>SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия»</p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>7p. out of 15</p>

D. standard of public services in the field of medical activity

E. GAFMC

16. At the reception, the patient, 34 years old, wants to receive medical care within the framework of the CSHI.

With the help of which database can a doctor determine the status of an insured person?

A. portal of outpatient care

B. register of the attached population

C. quality management system of med. services

D. unified register of insured citizens

E. electronic register of inpatient patients

17. An employee of an oil refinery, a citizen of S. with a blood disease (anemia), applied to a medical facility. Assistance was provided under the basic program of compulsory medical insurance.

What funds are used to finance medical care?

A. at the expense of the international fund

B. from the state budget

C. at the expense of the CSHI fund

D. at the expense of the pension fund

E. at the expense of the employer

18. Ruzanov, a resident of Taraz, works in Atyrau on a shift basis. While at home, he fell ill with the flu and was taken to the city hospital.

Does a citizen of Ruzanov have the right to free medical care?

A. as an insured citizen, he has the right to receive free medical care under the CSHI package

B. due to the fact that the disease occurs at home and not at work, he does not have the right to receive free medical care

C. medical care is provided free of charge, since influenza is an infectious disease

D. medical care is provided only on a paid basis

E. the organization where the patient works transfers payment for medical services to the city polyclinic

19. A 50-year-old man turned to the VMI company with a complaint about the quality of dental care: the doctor removed a healthy tooth instead of a patient.

Does the insurance company have the right to organize an inspection?

A. does not have the right

B. has the right

C. has, by decision of the Department of Health

D. has, with the permission of the Prosecutor's Office

E. has, by court decision

20. The commander of the military unit fell off a cliff and broke his leg. His wife took him to the polyclinic because there was no medical facility near the military unit. When it became clear that the patient was a soldier, the doctor refused to help him and demanded payment.

Evaluate the doctor's actions

A. medical care is provided with the permission of the chief physician

B. medical care for the patient should be provided only in special institutions for military personnel

C. the doctor has reason to demand payment, since the serviceman did not make contributions to the compulsory medical insurance fund

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		 <p> SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		8p. out of 15

D. since the state pays contributions to the compulsory medical insurance fund for military personnel, the doctor must provide medical care for free

E. the doctor's actions are incorrect, since the patient receives medical care within the framework of the GAFMC

21. Since January 1, 2019, a voluntary medical insurance organization has signed a contract with the organization M., the contract provides for the following conditions: the name of the parties, the validity period, the amount of insurance premiums and the procedure for their payment, the rights and obligations of the parties. The first installment is received on February 7, 2019. The VMI organization refused to pay for medical care received in the period from January 1 to February 6.

When does the health insurance contract come into force?

A. the health insurance contract is considered concluded from the moment of payment of the first insurance premium

B. the medical insurance contract comes into force on January 1.

C. the medical insurance contract comes into force from the moment the parties sign

D. the medical insurance contract comes into force from the moment the contract is concluded.

E. the medical insurance contract is considered concluded from the moment the amount of the insurance premium is determined.

22. Insured citizen K. lives in Taraz. He went to visit relatives in Nur-Sultan and fell ill. He came to the therapist of the local polyclinic. The polyclinic's therapist refused to accept the patient because he was registered in Taraz.

Are the therapist's actions legal? If not, what legislation of the Republic of Kazakhstan has been violated?

A. The therapist's actions are illegal. According to the Law of the Republic of Kazakhstan "On Compulsory social health insurance" No. 405, medical care must be provided free of charge throughout the territory of the Republic of Kazakhstan

B. the actions of the therapist are illegal. According to the Code "On Health and the Healthcare System", medical care should be provided free of charge throughout the territory of the Republic of Kazakhstan

C. the actions of the therapist are legal. Medical care should be provided free of charge in all regions of the Republic of Kazakhstan, only in registered medical institutions

D. The therapist's actions are legal. Medical care is provided free of charge at the place of residence

E. The therapist's actions are legitimate. Medical care should be provided to a citizen on a paid basis.

23. The main type of biomaterial for laboratory PCR examination in the diagnosis of COVID-19 is

A. feces

B. sputum

C. vomit

D. nasopharyngeal smear

E. urine

24. Delivery to the hospital of patients suspected of COVID-19 from outpatient medical institutions is carried out

A. by public transport

B. by the patient's relatives

C. by polyclinic motor transport

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>   SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>9p. out of 15</p>

- D. on a specially allocated medical vehicle
  - E. by a linear ambulance team
25. The confirmed case of a new coronavirus infection COVID-19 includes patients with ...
- A. severe acute respiratory infection, unclear etiology in combination with epidemiological history data: arriving from epidemiologically disadvantaged regions and contact persons
  - B. severe acute respiratory infection, unclear etiology, not taking into account epidemiological history
  - C. laboratory confirmation of infection caused by COVID-19, regardless of clinical symptoms
  - D. clinical manifestations of skin lesions in combination with epidemiological anamnesis data: arriving from epidemiologically disadvantaged regions and contact persons
  - E. severe acute respiratory infection, unclear etiology in combination with epidemiological anamnesis data: arriving from epidemiologically disadvantaged regions and contact persons - in which the result of laboratory testing for the presence of COVID-19 is questionable

## 2-option

1. The legal framework of compulsory health insurance includes:
  - A. The Law "On Compulsory social insurance"
  - B. The Law "On compulsory pension insurance in the Republic of Kazakhstan"
  - C. The Law "On Social services for disabled people and elderly citizens"
  - D. The Law "On compulsory social health insurance for citizens of the Republic of Kazakhstan"
  - E. The Law "On Social Protection of disabled people in the Republic of Kazakhstan"
2. One of the goals of the introduction of CSHI
  - A. budget savings
  - B. activation of medical universities
  - C. achievement of public solidarity
  - D. increase in paid services
  - E. Changing the attitude of the population to medical workers
3. The type of medical services provided under the compulsory health insurance system is approved by ...
  - A. The Ministry of Health of the Republic of Kazakhstan
  - B. The Government of the Republic of Kazakhstan
  - C. The Cabinet of Ministers of the Republic of Kazakhstan
  - D. The Parliament of the Republic of Kazakhstan
  - E. deputies of the Senate
4. Funds are transferred to the insurance fund for the working population, with mandatory medical insurance ...
  - A. the employer
  - B. Trade union organization
  - C. State
  - D. Local government bodies
  - E. State Revenue Committee
5. Contributions to the fund must be deducted ...
  - A. daily
  - B. 1 time in 3 months
  - C. 1 time in 6 months

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>10p. out of 15</p>

- D. 1 time a year  
E. monthly
6. Medical care in the conditions of CSHI ... .
- A. is provided only in state institutions  
B. is provided at the expense of the patient's funds  
C. should not exceed the approved tariff  
D. concentrates in the interests of the patient  
E. turns out to be by the decision of the commission
7. The complex of the Fund's activities for the purchase of services includes ...
- A. planning of the volume and cost of medical care, selection of potential suppliers, conclusion of contracts, fulfillment of contractual obligations  
B. planning of the volume and cost of medical care, selection of potential suppliers, fulfillment of contractual obligations  
C. planning of the volume and cost of medical care, selection of potential suppliers, conclusion of contracts  
D. planning of the volume and cost of medical care, selection of potential suppliers  
E. referral of potential primary care providers included in the unified register of suppliers to the approval campaign, fulfillment of contractual obligations
8. One of the basic principles of purchasing services by the Fund is...
- A. ensuring territorial accessibility of medical care in the system of compulsory social health insurance  
B. inequality of healthcare subjects  
C. bankruptcy or liquidation procedure  
D. legal capacity, solvency  
E. absence of tax arrears
9. Medicinal formularies of healthcare organizations are formed on the basis of ...
- A. principles of evidence-based medicine  
B. State Pharmacopoeia of the Republic of Kazakhstan  
C. International Formulary of Medicines  
D. Pharmacology as a science  
E. of the National Formulary of medicines of Kazakhstan
10. Will it be possible to withdraw their deductions if a person has not applied to medical institutions operating in the CSHI system?
- A. possible after 6 months  
B. possible at any time  
C. it is impossible  
D. it is possible after one year  
E. it is possible due to the death of the depositor
11. At the reception, a patient of 60 years, 20 years receives treatment for rheumatoid arthritis. Lives in the city of Kostanay, is registered there. He is treated irregularly, interrupts taking medications. Complains of increased pain in the knee and hip joints in the last few months. The patient requires hospitalization and hip replacement at the Institute of Traumatology in Nur-Sultan.
- In what cases do citizens have the right to choose a healthcare organization that provides inpatient care in the CSHI system?
- A. In all cases that have occurred

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA  AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN  <b>MEDICAL  ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>11p. out of 15</p>

- B. In cases of planned medical care
- C. There is no such right
- D. Only in cases of emergency medical care
- E. Only by the conclusion of the commission

12. A 28-year-old man was admitted to the hospital on the 5th day of the disease. He became acutely ill with the appearance of a spot and itching on his leg, fever, then a red seal appeared on the spot, then a bubble that burst with the formation of a painful ulcer, there was a sharp pain and a seal in the left groin area. In the area of the left ankle joint there is a deep ulcer with a diameter of 2 cm. with undercut edges, the base is infiltrated, there is hyperemia and edema around, the ulceration is juicy with serous-hemorrhagic contents, painful on palpation. The doctor suspected the plague in the patient.

Within the scope of what amount of medical care will the patient be treated from 01.01.2020?

- A. On a paid basis
- B. The system of compulsory social medical insurance
- C. Guaranteed amount of free medical care
- D. Through voluntary medical insurance
- E. At the expense of charitable foundations

13. It was decided to transport a seriously ill person to the regional clinical hospital by air ambulance from a village far from the district center.

Who pays for the air ambulance service?

- A. air ambulance services are free for the patient, since he is included in the GAFMC
- B. air ambulance services are free of charge for the patient, since he is included in the CSHI package
- C. air ambulance services are paid for by the regional clinical hospital
- D. air ambulance services are paid for by the district hospital
- E. air ambulance services are paid for by the patient

14. A 40-year-old patient, after an injury to the lumbosacral spine, was treated by a neurologist for the diagnosis of "Post-traumatic lumbosacral sciatica". The district doctor issued a referral for a course of medical rehabilitation.

What source of funding will cover the patient?

- A. At the expense of charitable foundations
- B. Guaranteed volume of free medicine
- C. On a paid basis
- D. Through voluntary medical insurance
- E. System of compulsory medical insurance

15. In April of this year, the amount of all income of an individual who is an employee of a private construction company in the position of chief engineer amounted to 620,000 tenge.

What was the amount of the employer's deductions for the CSHI for the above procedures per month?

- A. 9300 tenge
- B. 6375 tenge
- C. 8500 tenge
- D. 12400 tenge
- E. 6200 tenge

16. An employee of a private company, a payer of the CSHI system, mistakenly paid the monthly amount of deductions. Having made a request to the Social Insurance Fund, I was refused a refund.

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p> SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		<p>58/12</p>
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		<p>12p. out of 15</p>

Does the Fund have the right to refuse to provide a refund of mistakenly paid funds at his personal request?

- A. no, because it contradicts the Law on the CSHI of the Ministry of Health of the Republic of Kazakhstan
- B. yes, because an application is required from his employer
- C. no, because private entrepreneurs belong to the preferential category of payers
- D. yes, because the application for a refund is considered first local executive body
- E. yes, because the wrongly paid deductions are immediately subject to automatic recalculation

17. A young woman of 22 years old, 8-9 weeks pregnant, came to the reception. Registration has been made. The doctor issued a referral to the dentist.

How will dental care be provided to a pregnant woman?

- A. other sources
- B. the CSHI system
- C. on a paid basis
- D. through voluntary medical insurance
- E. GAFMC(Guaranteed amount of free medical care)

18. Determine the procedure for payment of contributions / deductions by a person serving a sentence under a court sentence in institutions of the penitentiary (penitentiary) system of medium security from January 1, 2021.

- A. state contribution, 3% of the object of calculation of state contributions
- B. state contribution of at least 4, but not more than 5% of the object of calculation of state contributions
- C. state contribution, 4% of the object of calculation of state contributions
- D. state contribution of at least 2, but not more than 3% of the object of calculation of state contributions
- E. persons of this category are subject to payment of contributions/deductions after the expiration of the sentence

19. An employee of the Ministry of Foreign Affairs of the Republic of Kazakhstan is sent to work for a grant of the Republic of Kazakhstan. What will be the procedure for the payment of contributions / deductions of the accompanying spouse?

- A. the accompanying spouse belongs to the category of independent payers
- B. contributions are paid by the state transfers to the Fund account through the state corporation
- C. by deduction from the staff salary after submitting the relevant application
- D. the accompanying spouse is exempt from paying contributions/deductions to the Fund
- E. by withholding half of the amount of staff contributions to the account of the accompanying spouse after submitting the relevant application

20. At the reception, the patient, 34 years old, wants to receive medical care within the framework of the CSHI.

With the help of which database can a doctor determine the status of an insured person?

- A. portal of outpatient care
- B. register of the attached population
- C. quality management system of med. services
- D. unified register of insured citizens
- E. electronic register of inpatient patients

21. Will the amount of medical care depend on how much money a person has transferred to the Social Health Insurance Fund?

- A. Yes, as in the GAFMC system

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p> SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		13p. out of 15

## Situational tasks of the 1st midterm control

### Task-1

A 70-year-old man applied to the polyclinic at his place of residence. The nurse at the registry office refused to register the patient with the district therapist because he did not have an identity card, and the nurse could not determine his status.

Determine the status of the man.

### Task-2

An employee of an oil refinery, a citizen of S. with a blood disease (anemia), applied to a medical facility. Assistance was provided under the basic program of compulsory medical insurance.

What funds are used to finance medical care?

### Task-3

Ruzanov, a resident of Taraz, works in Atyrau on a shift basis. While at home, he fell ill with the flu and was taken to the city hospital.

Does citizen Ruzanov have the right to free medical care?

### Task-4

Citizen Oralov does not work anywhere. He was taken by ambulance to the hospital, where he was diagnosed with appendicitis and operated on.

How is Oralov's treatment funded?

### Task-5

Citizen Oral does not work anywhere. He was diagnosed with appendicitis, he was hospitalized by ambulance and underwent surgery.

From which package was medical care provided to Oralov?

### Task-6

The commander of the military unit fell off a cliff and broke his leg. His wife took him to the polyclinic because there was no medical facility near the military unit. When it became clear that the patient was a soldier, the doctor refused to help him and demanded payment.

Evaluate the doctor's actions

### Task-7

A pregnant woman named A. appealed to the court with a complaint that the child was born prematurely, because the doctors of the gynecological department of the polyclinic refused to provide medical care. At the request of the court, the doctors explained that the pregnant woman was a citizen of another country, not insured in our country, and they explained to her that medical care would be paid for her.

How should medical care be provided to Citizen A.?

### Task-8

Citizen K. underwent two unsuccessful stomach surgeries. She made an agreement via the Internet with a special surgical clinic working in this direction and asked the head doctor of the local polyclinic to give her directions. However, the chief physician refused to refer the patient, stating that he had no right to choose a clinic and a doctor.

Evaluate the doctor's actions

### Task-9

<p> ONTÜSTIK-QAZAQSTAN  <b>MEDISINA</b>  <b>AKADEMIASY</b>  «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		 <p> SOUTH KAZAKHSTAN  <b>MEDICAL</b>  <b>ACADEMY</b>  АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		15p. out of 15

An unemployed 50-year-old man with a diagnosis of diabetes mellitus applied to the clinic. The doctor said that if he could not find a patient in the database of insured persons, he should apply for paid services.

How should medical care be provided to the patient?

#### **Task-10**

Since January 1, 2019, a voluntary medical insurance organization has signed a contract with the organization N., the contract provides for the following conditions: the name of the parties, the validity period, the amount of insurance premiums and the procedure for their payment, the rights and obligations of the parties. The first installment is received on February 7, 2019. The VMI organization refused to pay for medical care received in the period from January 1 to February 6.

Assess the situation.

#### **Task-11**

Insured citizen K. lives in Taraz. He went to visit relatives in Nursultan and fell ill. He came to the therapist of the local polyclinic. The polyclinic's therapist refused to accept the patient because he was registered in Taraz.

Are the therapist's actions legal? If not, what legislation of the Republic of Kazakhstan has been violated?

#### **Task-12**

A 53-year-old housewife called an ambulance due to high blood pressure. The doctors demanded payment after providing the patient with medical care.

Evaluate the actions of ambulance doctors.

#### **Task-13**

Citizen V. Samoilov came to Almaty to visit his brother. Two days later, he was taken to a local hospital with pain in his leg. Since Samoilov did not have the citizenship of the Republic of Kazakhstan, medical assistance was not provided to him.

Evaluate the actions of doctors.
