- D. their financial and economic activities are carried out in accordance with the legislation of the Republic of Kazakhstan
- E. false information about the activities of a legal entity is provided

7. The algorithm of business processes for potential suppliers

- A. search for announcements about the purchase of the Fund, filing an application for participation through the egov portal, the procedure for inclusion in the unified list of suppliers, the procedure for concluding a contract for the purchase of services
- B. search for announcements about the purchase of the Fund, applications for participation through the egov portal, the procedure for concluding a contract
- C. search for announcements about the purchase of services Fund, applications for participation through the Fund's portal, inclusion in the Unified Register of Suppliers, the procedure for concluding a contract for the purchase of services
- D. search for announcements about the purchase of the Fund's services, submitting an application for participation through the egov portal, inclusion in the unified list of suppliers, fulfillment of contractual obligations

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p> SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		6p. out of 20

E. search for announcements about the purchase of the Fund's services, inclusion in the Unified Register of Suppliers, the procedure for concluding a purchase agreement

8. The only distributor of medicines in Kazakhstan

- A. SK-Europharma
- B. Ministry of Health of the Republic of Kazakhstan
- C. Government of the Republic of Kazakhstan
- D. Atameken Entrepreneurship Development Center
- E. SK-Pharmacy

9. At a pediatrician's appointment, a 12-year-old boy is registered for chronic rheumatic heart disease. During the last year, there has been a deterioration in the condition, there are indications for the replacement of heart valves. It is planned to send for surgery to a Cardiac surgery center under the system of compulsory social health insurance.

Does the length of participation in the system matter for this patient?

- A. Yes, because the service is calculated on the amount of savings
- B. No, the experience of participation in the system does not matter
- C. Yes, the experience of participation is required – 1 year
- D. No, because children are exempt from paying contributions
- E. No, because cardiac surgery is performed for children for free

10. A 38-year-old woman. She believes that she has been ill for 3 days: chills with fever 39.2 c, severe headaches, weakness. 5 days ago, I cut myself while cutting meat, an abscess appeared, which is now covered with a crust, the ulcer is painless. The hand is swollen. The doctor suspected anthrax.

What is the further tactics of the doctor in identifying an infectious disease that poses a danger to others?

- A. Call the chief physician of the polyclinic
- B. Calling an ambulance on yourself
- C. Self-dispatch of an emergency notification
- D. Notification of the polyclinic management
- E. Introduction of anthrax globulin

11. A child, 5 years old, was hospitalized with complaints of high fever, lying listlessly on his side, with his head tilted back. Meningeal symptoms are determined. The doctor diagnosed meningitis.

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		7p. out of 20

Within what scope of medical care will the patient be treated?

- A. The system of compulsory medical insurance
- B. Guaranteed volume of free medicine
- C. On a paid basis
- D. Through voluntary medical insurance
- E. At the expense of charitable foundations

12. Which state body determines the list of diseases against which preventive vaccinations are carried out, the procedure, the timing of their implementation and the population groups subject to routine vaccinations?

- A. Sanitary and epidemiological station
- B. Government of the Republic of Kazakhstan
- C. Ministry of Health of the Republic of Kazakhstan
- D. Local executive bodies
- E. Republican Center for Health Development

13. A young woman of 22 years old, 8-9 weeks pregnant, came to the reception. Registration has been made. The doctor issued a referral to the dentist.

How will dental care be provided to a pregnant woman?

- A. other sources
- B. CSHI system
- C. on a paid basis
- D. through voluntary medical insurance
- E. GAFMC

14. The doctor of the Department of Obstetrics and Gynecology takes leave in connection with pregnancy and childbirth. Has a work experience of 11 years, the official salary is 165,000 tenge / month.

Determine the procedure for making deductions /contributions to the CSHI fund in the case of maternity leave from January 1, 2021.

- A. the state contribution is 4% of the object of calculation of state contributions
- B. the state contribution is not less than 4%, but not more than 5% of the object of calculation of state contributions
- C. employer deductions, 1% of the object of calculation of deductions

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		 <p> SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		8p. out of 20

D. employer's deductions, 1.5% of the object of deduction calculation

E. employer's deductions, 2% of the object of deduction calculation

15. Will the amount of medical care depend on how much money a person has transferred to the Social Health Insurance Fund?

A. It is not yet defined in the law

B. Yes, since it will be similar to the funded system

C. Partially, the volume from the first package (GAFMC) will not depend, and from the second (CSHI) – will depend

D. No, it is enough that deductions are made regularly

E. Yes, as in the GAFMC system

16. Citizen Oralov does not work anywhere. He was diagnosed with appendicitis, he was hospitalized by ambulance and underwent surgery.

From which package was medical care provided to Oralov?

A. from the GAFMC package

B. from the CSHI package

C. from the package of medical institutions

D. from the package for the unemployed

E. from the local package

17. Employee Ivanova A. is on maternity leave.

Who will transfer the money for Ivanova to the CSHI fund?

A. employer

B. The State

C. her husband

D. Social security center

E. Local administration

18. Citizen K. underwent two unsuccessful stomach surgeries. She made an agreement via the Internet with a special surgical clinic working in this direction and asked the chief doctor of the local polyclinic to give her directions. However, the chief physician refused to refer the patient, stating that he had no right to choose a clinic and a doctor.

In what document is the right to choose a medical institution and a doctor prescribed?

A. in the President's Message

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		9p. out of 20

- B. in the program "Densaulyk"
- C. in the Unified National Health System
- D. in the Constitution of the Republic of Kazakhstan
- E. in the order of the Ministry of Health of the Republic of Kazakhstan

19. A 75-year-old woman appealed to the insurance fund with a complaint that she was dissatisfied with the work of the cardiology center. The chief physician of the cardiology center said that the documents requested by a special commission organized by the insurance fund will be issued only with the permission of the Department of Health.

What is the procedure for submitting documents?

- A. the actions of the chief doctor are illegal, documents must be submitted to the commission
- B. the actions of the chief doctor are legal, documents are not issued
- C. documents are issued only with the permission of the prosecutor
- D. documents are issued only with the permission of the Department of Health
- E. documents are issued by a court decision

20. A 53-year-old housewife called an ambulance due to high blood pressure. The doctors demanded payment after providing the patient with medical care.

Evaluate the actions of ambulance doctors.

- A. since high blood pressure belongs to the group of social diseases, medical care is provided on a paid basis
- B. since the housewife is not insured, any medical care is provided on a paid basis, therefore the actions of doctors are legal.
- C. medical care for patients with high blood pressure is provided free of charge
- D. the actions of doctors are legal, since ambulance care is provided at the expense of the CSHI package
- E. the actions of doctors are illegal, since the ambulance is provided at the expense of the GAFMC

21. Citizen V. Samoilov came to Almaty to visit his brother. Two days later, he was taken to a local hospital with pain in his leg. Since Samoilov did not have the citizenship of the Republic of Kazakhstan, medical assistance was not provided to him.

Evaluate the actions of doctors.

- A. doctors are right, because Samoilov is not a citizen of Kazakhstan
- B. medical care is provided to uninsured patients or stateless patients on a paid basis.

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>

Situational tasks of 2 midterm control

Task 1.

A 19-year-old girl was raped in a small village. The victim did not inform anyone about the sexual violence, except for her parents and the doctor. She turned to the doctor, having a pregnancy of 6 weeks with a request to have an abortion at home in order to avoid publicity. The doctor refused her. The victim became depressed and committed suicide. The parents accused the doctor of driving him to suicide, and when the doctor in the course of his interrogation reported the details of the circumstances, the law enforcement authorities – in disclosing medical secrets.

Question: Is the doctor right from a legal point of view when he refused the girl an abortion and when he "reported the details" during the interrogation?

Task 2.

A young man, a Chechen by nationality, and a Russian police major were simultaneously taken to a small hospital, who injured each other in a criminal situation. The general condition of the victims was about the same. Russian doctors by nationality provided full-fledged medical assistance to the police major and actually refused to provide full-fledged assistance to the young man without valid reasons, limiting themselves only to stopping external bleeding. Failure to provide medical assistance to the victim led to the development of a life-threatening condition.

Question: Is there a violation of ethical principles in the actions of doctors? Explain.

Task 3.

Ivanova, who is registered in a narcological dispensary, received a call for examination for the second time. However, she did not appear on the call. A nurse in the presence of a police officer handed over a call from a drug dispensary to neighbors. Ivanova filed a complaint about the violation of medical secrecy.

Question: Is Ivanova's complaint justified?

Task 4.

During the fluorographic examination and subsequent diagnosis, the director of school No. 1 Petrenko I.V. was diagnosed with tuberculosis. The chief doctor of the polyclinic sent a message to the head of the Department of Education about this fact. The director of the school filed a complaint about the disclosure of medical secrets.

Question: Is the complaint justified?

Task 5.

N. Sergacheva, 14 years old, turned to the dermatology dispensary, where she was diagnosed with trichomoniasis. The doctor asked for information about the parents, intending to give them this information. Sergacheva was indignant and reminded him of medical secrecy.

Question: Who is right?

Task 6.

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		<p>  SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>
<p>“Social Medical Insurance and Public Health” department</p>		58/12
<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		19p. out of 20

Litvinov addressed the Emergency medical hospitals about a gunshot wound to the leg, explaining that he caused the injury himself due to careless handling of weapons. The doctor on duty reported information about the fact of Litvinov's appeal to the police station on duty. After 10 days, the bodies of inquiry refused to initiate a criminal case due to the absence of a crime event. Litvinov complained about the actions of the doctor on duty upon the disclosure of medical secrets.

Question: What would be your response to Litvinov's complaint?

Task 7.

The dermatologist Samoilova, while visiting a friend of Feoktistova, advised her not to allow her daughter to play with a neighbor girl, Lindova, because she was at a reception with Samoilova, and the girl was found to have scabies. Lindova is a famous massage therapist. Feoktistova was visited by 2 clients of the masseur Lindova, who refused her sessions the next day, explaining this by the contagious illness of her daughter.

Question: Are there any violations of the patient's rights in this situation?

Task 8.

Patient M., 15 years old, was taken from the summer camp by ambulance to the emergency department of the district hospital with a diagnosis of acute enterocolitis. Ill for four days. An appendicular abscess was diagnosed in the emergency department, and the girl was operated on urgently. The girl's consent to the operation was obtained. The girl's father, who arrived 3 hours later, filed a complaint against the actions of the surgeon on duty, since the operation was performed without the consent of the parents of a person who had not reached the age of majority.

Question: Are the claims of the girl's father fair?

Task 9.

Patient K., 43 years old, was being treated at the general surgery clinic of the Medical Academy with a diagnosis of acute hemorrhoidal thrombosis. Conservative therapy was carried out. The patient himself suspected liver disease, about which he studied the relevant medical literature. I didn't tell the doctors about it during the conversation, because I was embarrassed to admit to regular alcohol consumption. He asked the attending physician to show him a biochemical blood test, which he was refused. During the study examination, the student showed the patient a biochemical analysis, where there was a slight increase in alanine aminotransferase and aspartate aminotransferase, after which the patient asked the attending physician to invite a hepatologist for a consultation. Instead, the doctor prescribed an ultrasound of the liver, in which no changes were found at that time, and after the acute hemorrhoids subsided, the patient was discharged with a recommendation to operate as planned. After 6 months, this patient was admitted to the city hospital with a detailed picture of cirrhosis of the liver.

Question: Please indicate what mistakes the clinic doctor made from a legal point of view?

Task 10.

Klinchenko, suffering from bronchial asthma, due to an attack of suffocation, caused small business entities. The small business entities team offered Klinchenko an injection. Klinchenko agreed. After the small business entities team left, he had an unusual reaction to the medicine.

<p> ONTÜSTIK-QAZAQSTAN MEDISINA AKADEMIASY «Оңтүстік Қазақстан медицина академиясы» АҚ </p>		 <p> SOUTH KAZAKHSTAN MEDICAL ACADEMY АО «Южно-Казахстанская медицинская академия» </p>

<p>CONTROL AND MEASURING MEANS «CSHI and medical law»</p>		20p. out of 20

Klinchenko suspected that this medicine gave an allergic reaction, but he did not know its name due to the fact that he was not informed about the treatment being carried out, and also did not find out the possibility of an allergic reaction.

Question: What rights of Klinchenko's patient have been violated?

Task 11.

The patient F. was tested for venereal disease, which showed the presence of gonorrhea in F.. At the reception, the gynecologist said that F. F. cried and said that she was afraid to tell him about it, to which the doctor grossly insulted F.

Question: What right of the patient is violated?

Task 12.

After the examination, the 16-year-old patient M. asked the attending physician what her diagnosis was. The doctor called the diagnosis "Emphysema of the lungs". The patient asked to explain in more detail. The doctor replied that he did not have time for this, but you can read in detail in the medical encyclopedia, and in general, he intends to talk about M.'s illness with her parents, not with her.

Question: What rights of the patient have been violated?

Task 13.

A child, 1 year old, died during the operation. Parents require copies of medical documents to apply to the court. The hospital refused to issue, explaining that copies of medical documents are issued only at the written request of the court.

Question: Explain to parents their rights in this situation.
