

CONTROL AND MEASURING TOOLS FOR THE FINAL ASSESSMENT OF KNOWLEDGE, ABILITIES AND SKILLS BY DISCIPLINE

Department:	Physical Education
Course code:	FK 1(2)106
Name of EP:	"General Medicine"
Number of academic hours/credits:	120 hours/4 credits
Course, Year/ term:	II year, 3-4 semestr

Shymkent 2024 y

Explanatory note

The control norms based on "Tests of the President of the Republic of Kazakhstan- Elbasy". "Presidential tests" (Resolution of the Government of the RK 31.12.2013 Ne1545) in higher education institutions pass of last course. The control norms composed by four steps - «Physical perfection» for young in the 18-23 age by the method of degradation (reduction). Types of tests and standards, "the President's test of physical fitness of the population of Kazakhstan". The final assessment of the discipline (FA) consists of two parts: the current assessment (AAR - assessment of the admission rating, 60%) and the assessment of the final control (AFC, 40%).

Control physical exercise	Unit of measurement	Standard			
		Presidential readiness level		National readiness level	
		boys	girls	boys	girls
Standing Long Jump	centimeter	260	200	245	190
Flexion extension of the arms in the supine position	quantity/ min/	40	-	35	-
Pull-up	quantity/ min/	17	-	15	-
Lifting the torso from the supine position	Min/ times	-	50	-	45

Order №. 228-V-SAM of the ISS of the Republic of Kazakhstan dated 01.04.2019 on the introduction of amendments and additions to the "Tests of the First President of the Republic of Kazakhstan - Elbasy". Reviewed and approved at the meeting of the center

The assessment of the admission rating (AAR) is based on the summative value of the assessments of the current control obtained in practical classes at 15 weeks (40%), and the boundary control obtained at 7 and 14 weeks (60%). Admission to the final exam - a total of at least 50% of the AAR.

The final score (FS), week 15, is set based on the summative value of the AAR (60%) and the score of the final control (SFC, 40%) — the exam.

Discipline with the form of final control: Differentiated credit

Type of control	Specific weight of the assessment	Structure of learning outcomes assessment
Current	100% от AAR	The arithmetic mean of the current grades received in the classroom and divided by the number of current grades (for example): $CC = \frac{n_1 + n_2 + n_3 + n_4}{4}$, where n is the score for the practical lesson. Total current ratings = 30
Midterm control	MC=100%	Final control (dif.credit) it is 40% and includes assessments of boundary controls 1 and 2, which provides a cumulative assessment system.
Assessment of the admission rating (AAR)	AAR = 60%	AAR it makes up 60% of the assessment and includes current assessments for practical classes. If the AAR is less than 50%, the student is not allowed to participate in the dif. credit $AAR = TC = \frac{(n_1 + n_2 + n_3 + \dots)}{\text{number of ratings}}$
Score of the final control (EFC, dif.credit)	40%	FC (DC) = $\frac{MT_1 + MT_2 + \dots + MT_n}{n}$ n - number of midterm control
Final score (FS)	FC = $(AAR * 0,6) + (AFC * 0,4)$	When calculating the final assessment (FT) for the discipline, the assessment of the admission rating (AAR) and the assessment of the final control (AFC) are multiplied by the corresponding coefficients and summed up. $FC = (AAR * 0,6) + (AFC * 0,4)$
